**Subject:** Aldicarb - New and Revised labels: new product registration and supplemental label.

Hi Team,

Attached are the proposed labels that we received from the registrant, yesterday.

As our plan to move forward has developed and following the AA briefing last Friday, the registrant has submitted a supplemental label for the uses on orange and grapefruit in Florida for the 87895-4 product. I've attached both the last approved label for 87895-4 and the proposed supplemental label.

Also, attached is the label for the new product that will be solely labeled for the oranges and grapefruit in Florida.

As mentioned in the meeting this morning, the team has only done a cursory review of the labels and have noticed that some of the mitigation may be missing (i.e., 500 ft. well set-back), so if you notice anything amiss, please let us know.

Thank you!  
Debra
